Thick Ceiling Adapters

REV. 03/11
SPEC SHEET # RV8-2

CAT. NO:

TYPE:

PROJECT:

PRODUCT INFORMATION

Applications

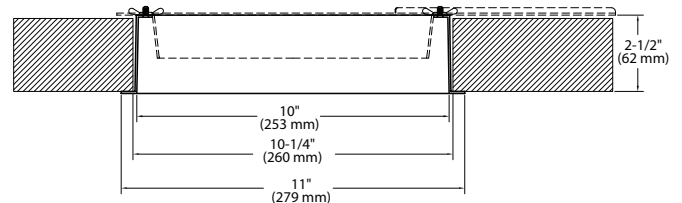

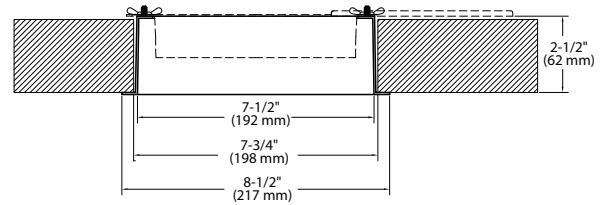

This is an adapter for standard Omega Revelation and Spex recessed downlights which allows the fixture to be mounted in ceilings up to 2-1/2" thick. The ceiling adapter maintains the lighting distribution of the standard downlight by proper alignment of the fixture in the ceiling.

Specifications

1. **Installation** - Secure ceiling adapter to fixture mounting pan with screws provided. Fixture must be supported by the ceiling structure. Ceiling adapter will not support the weight of the fixture. Fixture, C-Channel hangers and trim (reflector) assembly are ordered separately.

2. **Adapter**- Precision spun .051 aluminum single piece, self flanged, with white painted finish.

3. **Applications** - Enables fixture installation in ceilings up to 2-1/2" thick.
